

# strftime Format Codes

from nullislove.com

<b>Year</b>		Example
%Y	year with century	2007
%y	year without century	07
%C	century number (year divided by 100)	20
<b>Month</b>		Example
%B	full month name	January
%b	abbreviated month name	Jan
%h	same as %b	Jan
%m	month as number	(01-12)
<b>Week</b>		Example
%U	week number of the year, Sunday as first day of week	(00-53)
%W	week number of the year, Monday as first day of week	(00-53)
<b>Day</b>		Example
%A	full weekday name	Wednesday
%a	abbreviated weekday name	Wed
%d	day of the month	(01-31)
%e	day of the month, single digits preceded by space	( 1-31)
%j	day of the year	(001-366)
%w	weekday as a number, with 0 representing Sunday	(0-6)
%u	weekday as a number, with 1 representing Monday	(1-7)
<b>Time</b>		Example
%H	hour (24-hour clock)	(00-23)
%k	hour (24-hour clock); single digits preceded by space	( 0-23)
%I	hour (12-hour clock)	(01-12)
%l	hour (12-hour clock); single digits preceded by space	( 1-12)
%M	minute	(00-59)
%S	seconds	(00-59)
%p	either AM or PM	AM
%Z	timezone name or abbreviation	EDT
%z	timezone offset from UTC	-0400
<b>Summaries</b>		Example
%D	date, same as %m/%d/%y	05/16/07
%v	date, same as %e-%b-%Y	16-May-2007
%F	date, same as %Y-%m-%d	2007-05-16
%R	time, 24 hour notation, same as %H:%M	18:06
%T	time, 24 hour notation, same as %H:%M:%S	18:06:15
%r	time, am/pm notation, same as %I:%M:%S %p	06:06:15 PM
<b>Formatting</b>		
%n	newline character	
%t	tab character	
%%	percent character	

### **Less common formats**

<code>%s</code>	number of seconds since the Epoch, UTC
<code>%c</code>	national date and time representation
<code>%+</code>	national date and time representation
<code>%x</code>	national date representation
<code>%X</code>	national time representation
<code>%G</code>	year with century, starting on first Monday where week has 4 or more days.
<code>%g</code>	year without century, starting on first Monday where week has 4 or more days.
<code>%V</code>	week number of the year, starting on first Monday where week has 4 or more days.
